

2017-2018 ASPRS-RMR Scholarship Program

In its continuing efforts to support and build awareness for the Remote Sensing and GIS / Geospatial Sciences, the Rocky Mountain Region of ASPRS is proud to announce its academic scholarship program for 2017-2018. The ASPRS-RMR offers scholarships to deserving undergraduate and graduate students every year. There will be at least one scholarship awarded (assuming sufficient applications are received) in the range of at least \$500 to \$1,000 each, depending on level of study (Bachelor's, Master's or Ph.D.).

The scholarships are intended for students throughout the Rocky Mountain Region (Montana, Wyoming, Colorado and New Mexico) who demonstrate excellence while pursuing careers in the fields of Photogrammetry, Remote Sensing, and Geographic Information Systems (GIS) or related disciplines. Both undergraduate and graduate students of any third-level educational institution within the four-state region who are pursuing careers in these disciplines are encouraged to apply.

Awards will be presented sometime in early 2018. The Rocky Mountain Region has consistently offered thousands of dollars in annual scholarships every year. Preference will be given to those studies that apply sound scientific principles to practical applications in the geospatial sciences (photogrammetry, remote sensing, Geographic Information Systems, etc.). Awards at both the undergraduate and the graduate levels are based on academic merit; that is, the application form does not request any personal financial data.

Student membership in ASPRS is not required to apply, but if selected, membership is required at time of scholarship award.

You can download the application from the "Newsletters" page at <http://www.asprs-rmr.org>

For more information or if you have questions, send an email to asprs.rmr@gmail.com.

Applications should be submitted by the December 1, 2017 deadline.

(Be sure to follow submittal instructions on the bottom of the application.)
